

TODD V. ROYER
CURRICULUM VITAE

ADDRESS:

School of Public and Environmental Affairs
Indiana University
1315 E. 10th St
Bloomington, IN 47405

Phone: (812) 855-0563
Email: troyer@indiana.edu

Research Website: <http://www.indiana.edu/~royerlab/index.php>

EDUCATION:

Post-doctoral research associate, 2000–2003. University of Illinois at Urbana-Champaign
Ph.D. in Biology, 1999. Idaho State University, Pocatello
M.S. in Biology, 1995. Idaho State University, Pocatello
B.S. in Animal Ecology, 1992. Iowa State University, Ames

ACADEMIC APPOINTMENTS:

2010–present Associate Professor, School of Public and Environmental Affairs, Indiana University
2008–present Adjunct Associate Professor, Department of Biology, Indiana University
2011–2015 Program Chair, BS in Environmental Science program, Indiana University
2005–2010 Assistant Professor, School of Public and Environmental Affairs, Indiana University
2003–2005 Assistant Professor, Department of Biological Sciences, Kent State University

PROFESSIONAL MEMBERSHIPS:

American Society of Limnology and Oceanography
Ecological Society of America
Society for Freshwater Science
Indiana Water Resources Association

PEER-REVIEWED PUBLICATIONS: (* indicates graduate student under Royer's supervision)

Christopher, S.F., J.L. Tank, U.H. Mahl, H. Yen, J.G. Arnold, M.T. Trentman, S.P. Sowa, M.E. Herbert, J.A. Ross, M.J. White, and **T.V. Royer**. 2017. Modeling nutrient removal using watershed-scale implementation of the two-stage ditch. *Ecological Engineering* in press.

- Griffiths, N.A., J.L. Tank, **T.V. Royer**, E.J. Rosi, A.J. Shogren, T.C. Frauendorf. 2017. Occurrence, leaching, and degradation of Cry1Ab protein from transgenic maize detritus in agricultural streams. *Science of the Total Environment* 592:97-105.
- Ghosh, S., P.A. Ayayee, O.J. Valverde-Barrantes, C.B. Blackwood, **T.V. Royer**, and L.G. Leff. 2017. Initial nitrogen enrichment conditions determines variations in nitrogen substrate utilization by heterotrophic bacterial isolates. *BMC Microbiology* 17:87 DOI 10.1186/s12866-017-0993-7
- *Oviedo-Vargas, D. and **T.V. Royer**. 2015. The role of dissolved organic nitrogen in a nitrate-rich agricultural stream. *Journal of Environmental Quality* 44:668-675.
- *Warner, D.L., D. Oviedo-Vargas*, and **T.V. Royer**. 2015. Evaluation of passive samplers for the collection of dissolved organic matter in streams. *Environmental Monitoring and Assessment* 187:4208

TEACHING EXPERIENCE:

2005–present, Indiana University

E455, Limnology

E546, Stream Ecology

E539, Aquatic Chemistry

E272, Introduction to Environmental Science

E360, Introduction to Water Resources

E680, Environmental Science & Policy Seminar

E710, Biogeochemistry

2004–05, Kent State University

Limnology (BSCI 4/5/70364)

Stream Biology (BSCI 4/5/70170)

Basic Microbiology (BSCI 20021)

2002-03, University of Illinois at Urbana-Champaign

Aquatic Ecosystem Conservation (NRES 330)

Biogeochemistry of Forest, Agricultural, and Aquatic Ecosystems (NRES 416)

GRANTS FUNDED:

- 2017 Indiana Watershed Initiative (IWI): Quantifying water quality responses from the watershed-scale pairing of cover crops and the two-stage ditch. Indiana Soybean Alliance; subcontract from University of Notre Dame, \$15,000.
- 2016-17 Integrating environmental and economic outcomes from cover crop adoption in Indiana. Walton Family Foundation; subcontract from University of Notre Dame, \$70,925.
- 2016 Indiana Watershed Initiative (IWI): Quantifying water quality responses from the watershed-scale pairing of cover crops and the two-stage ditch. Indiana Soybean Alliance; subcontract from University of Notre Dame, \$20,640.
- 2015 Watershed scale adoption of cover crops and the two-stage ditch in Indiana: responses in water quality and quantity. Indiana Soybean Alliance; subcontract from University of Notre Dame, \$20,640.
- 2015 Transport and transformation of nitrogen, phosphorus, and carbon in intermittent streams. Indiana Water Resources Research Center, \$14,998 in federal funds and \$30,000 in matching funds. Co-PI with Adam Ward.
- 2012 Dissertation Research: Extracellular enzyme activity in large rivers and its relationship to dissolved organic matter quality and inorganic nutrient uptake. National Science Foundation, \$14,406. Co-PI with Diana Oviedo Vargas.
- 2011 An evaluation of the effects of stream restoration on the benthic and hyporheic environments of the Fawn River, IN. Fawn River Restoration and Conservation Charitable Trust, \$164,008. Co-PI with Jeff White.
- 2011 RET Supplement. National Science Foundation, DEB-1110974, \$15,000
- 2010 Upper East Fork White River Alliance – Nutrient Runoff Reduction. Decatur County Soil and Water Conservation District, \$43,340
- 2010 Transport and fate of pharmaceutical compounds in an Indiana stream. Indiana Water Resources Research Center, \$11,080 in federal funds and \$22,488 in matching funds.
- 2010 Hydrological controls on greenhouse gas emissions from agricultural landscapes: the role of artificial subsurface drainage. IU Faculty Research Support Program, \$51,000
- 2009 REU Supplement. National Science Foundation, DEB-0923807, \$7,000

- 2008–12 Interactions among dissolved organic matter, genetic structure, and denitrification in an agriculturally-influenced stream ecosystem. National Science Foundation, DEB-0743396, continuing grant with total award of \$649,000
- 2007–09 Quantifying the effect of urbanization on the physical and chemical hydrology of central Indiana watersheds. Monroe County (Indiana) Commissioners, \$96,000
- 2007–08 Quantifying organic and pharmaceutical contaminants in streams draining a central Indiana urbanizing watershed. 2006 IU Faculty Research Support Program, \$51,100
- 2004–08 Cycling of novel allochthonous carbon in Midwestern agricultural streams. National Science Foundation, DEB-0415984, \$530,000 (Co-PI with J.L. Tank, E.J. Rosi-Marshall, and M.R. Whiles)
- 2003–06 Spatial and temporal relationships between biotic integrity of Illinois streams, dissolved oxygen, and nutrients; including controls on dissolved reactive and particulate phosphorus. Illinois Council on Food and Agricultural Research, \$410,000 (Co-PI with M.B. David, M.R. Whiles, G.F. McIsaac, and R.D. Darmody)
- 2001–04 Factors controlling stream denitrification in an agricultural landscape. Watershed Processes and Water Resources panel, USDA National Research Initiative, \$315,000 (Co-PI with J.L. Tank and M.B. David)
- 2000 The role of in-stream processes in the cycling of dissolved nitrogen. Illinois Council on Food and Agricultural Research, \$66,000 (Co-PI with M.B. David)
- 1997 Influence of the Swet Creek wildfire on stream ecosystems in the Bitterroot National Forest, Idaho. ISU Faculty Research Committee, \$3,700 (with G.W. Minshall)

GRADUATE STUDENT AND POST-DOCTORAL ADVISEES:

Lienne Sethna, Ph.D. student, Indiana University, 2017–
 Jack McLaren, thesis-track MS student, Indiana University, 2016–present
 Kara Prior, Ph.D. student, Indiana University, 2015–present
 Joe Morgan, thesis-track MS student, Indiana University, 2012–2014
 Diana M. Oviedo Vargas, Ph.D. student, Indiana University, 2008–2013
 Laura T. Johnson, Indiana University, post-doctoral research associate, 2008–2012
 Jessica Fulgoni, thesis-track MS student, Indiana University, 2010–2012
 Michael P. Brennan, thesis-track MS student, Indiana University, 2008–2010
 Kristin M. Gardner, thesis-track MS student, Indiana University, 2007–2009
 Thomas J. Warrner, thesis-track MS student, Indiana University, 2006–2008
 Mitali Das, Ph.D. student, Kent State University, 2003–2006 (co-advised with L. Leff)

PROFESSIONAL ACTIVITIES:

- 2015–present Associate editor for the journal *Environmental Management* (Springer)
- 2015–present Appointed to Nutrient Science Advisory Committee for the state of Illinois; selected to chair the committee.
- 2011–present Aquatic Technical Working Group for the National Ecological Observatory Network (NEON).
- 2003–present Provided outside review of grant proposals for the National Science Foundation, the USDA National Research Initiative, and several state water resource institutes.
- 2003–present Provided peer-review for one or more manuscripts submitted to the following journals: *Biogeochemistry*, *BioScience*, *Ecology*, *Ecological Applications*, *EcoSphere*, *Environmental Management*, *Environmental Monitoring and Assessment*, *Environmental Science & Technology*, *Freshwater Biology*, *Freshwater Science*, *Hydrobiologia*, *Journal of Environmental Quality*, *Journal of Geophysical Research*, *Journal of the North American Benthological Society*, *Landscape Ecology*, *Limnology and Oceanography*, *Microbial Ecology*, *Oecologia*, *Science of the Total Environment*, *Water Resources Research*.
- 2016 National Program 211 review panel for the US Department of Agriculture
- 2014-15 Served on the planning committee for the 2015 annual meeting of the Society for Freshwater Science; co-organizer for the special sessions and scientific program.
- 2012 Member of external review team for undergraduate Environmental Science and Environmental Studies programs at Iowa State University.
- 2011 National Program 211 review panel for the US Department of Agriculture
- 2010-11 Planning committee for the 2011 annual meeting of the North American Benthological Society; co-organizer for the special sessions and scientific program.
- 2007–10 Technical advisor for the Indiana Department of Environmental Quality to assist and advise in the development of water quality standards.
- 2008 Served on an independent review team for the Agricultural Incentives Program operated by the (non-profit) Sand County Foundation, Monona, WI.
- 2005–2006 Planning committee for a regional conference on reducing non-point source pollution sponsored by The Rivers Institute and The Nature

Conservancy.

- 2005 Guest editor of a special volume of *Aquatic Sciences* honoring the career of Professor G. Wayne Minshall on the occasion of his retirement.
- 2005 Provided outside review of a grant proposal submitted to EPA's Regional Environmental Monitoring and Assessment Program.
- 2005 Invited by Environment Canada to participate in the National Agri-Environmental Standards Initiative (NAESI) Water Workshop, Cambridge, Ontario
- 2005 Served on the Watershed Processes and Water Resources panel of the USDA CSREES competitive grants program.

INVITED TALKS AND SEMINARS:

- 2017 Using the indicator of coastal eutrophication potential (ICEP) to examine trends in N, P, and Si stoichiometry in the Mississippi River and its major tributaries. Purdue University, West Lafayette, Indiana.
- 2015 Nutrient runoff from agricultural watersheds in southeast Indiana (USA) and development of the watershed conservation regime. American Chemical Society meeting, Boston.
- 2014 Microbial community structure, denitrification, and nitrogen retention in an agricultural stream. Joint Aquatic Sciences Meeting, Portland, Oregon.
- 2013 Environmental impacts of deicers. Webinar hosted by Purdue University Extension.
- 2012 Beyond water quality: Embodied energy and global warming potential of fertilizer runoff in the Mississippi River basin. Ball State University, Muncie, Indiana.
- 2010 Field experiments to examine coupled biogeochemical cycles in Indiana streams. Department of Geological Sciences, Indiana University, Bloomington.
- 2010 Interactions among dissolved organic matter, microbial diversity, and nitrogen cycling in an agricultural stream. Cary Institute for Ecosystem Studies, Millbrook, New York.
- 2009 Optimizing denitrification in agricultural streams. Workshop on Denitrification in Managed Ecosystems, University of Rhode Island.
- 2008 Toward nutrient standards in streams: interactions among nutrients, algae, and dissolved oxygen. Department of Earth Sciences, IUPUI.
- 2008 Developing effective and defensible nutrient standards for the streams and rivers of Illinois. National Soil Erosion Laboratory, West Lafayette, Indiana.

- 2007 Does transgenic corn pose a threat to aquatic ecosystems in the midwestern US? Department of Natural Resources and Environmental Sciences, University of Illinois at Urbana-Champaign.
- 2006 Do in-stream transformations affect nitrogen loading to the Mississippi River? Presented at the EPA-sponsored symposium: Sources, transport, and fate of nutrients in the Mississippi and Atchafalaya river basins, Minneapolis, MN.
- 2006 Temporal patterns in nutrient export from agricultural watersheds: implications for water quality in the Mississippi River. School of Natural Resources, University of Nebraska, Lincoln.
- 2005 Biogeochemistry of DOC in agricultural streams. Department of Biological, Geological and Environmental Sciences, Cleveland State University.
- 2004 Sources and fate of dissolved organic carbon in agricultural streams. Department of Zoology, Miami University of Ohio, Oxford.
- 2002 Monitoring dissolved oxygen in streams. Illinois Association of Wastewater Agencies.
- 2001 Factors controlling denitrification in agricultural streams. Biology Department, Virginia Polytechnic Institute and State University, Blacksburg.

PRESENTATIONS AT REGIONAL AND NATIONAL MEETINGS:

- 2017 Temporal trends in N, P, and silica stoichiometry in the Mississippi River basin suggest increasingly favorable conditions for non-siliceous algae and cyanobacteria. Annual meeting of the Society for Freshwater Science, Raleigh, North Carolina.
- 2015 Nutrient and sediment runoff from agricultural watersheds: insights for effective management practices. Annual meeting of the Society for Freshwater Science, Milwaukee, Wisconsin.
- 2012 Beyond water quality: Embodied energy and global warming potential of fertilizer runoff in the Mississippi River basin. Annual meeting of the Society for Freshwater Science, Louisville, Kentucky.
- 2011 Patterns in denitrification, microbial community structure, and dissolved organic carbon in an agricultural stream network. Annual meeting of the North American Benthological Society, Providence, Rhode Island.
- 2010 Effect of a labile DOC enrichment on organic carbon cycling in an agricultural stream. Annual meeting of the North American Benthological Society, Santa Fe, New Mexico.

- 2009 Human pharmaceutical and personal care products in the streams of an urbanizing watershed: evidence of nonpoint source inputs. Annual meeting of the North American Benthological Society, Grand Rapids, Michigan.
- 2008 Towards the development of nutrient standards: Relationships among nutrients, algal biomass, and dissolved oxygen in Illinois streams and rivers. Annual meeting of the North American Benthological Society, Salt Lake City, Utah.
- 2008 Biogeochemistry of DOC in headwater agricultural streams. American Society of Limnology and Oceanography, St. John's, Newfoundland, Canada.
- 2008 Relationships among nutrients, algal biomass, and dissolved oxygen. Spring meeting of the Indiana Water Resources Association, Bloomington, Indiana.
- 2007 Is chlorophyll the appropriate indicator of nutrient enrichment in Illinois streams? Annual meeting of the North American Benthological Society, Columbia, South Carolina.
- 2007 Microbial community structure in headwater streams and its influence on denitrification. American Society of Limnology & Oceanography, Aquatic Sciences Meeting, Santa Fe, New Mexico.
- 2006 Nitrate and phosphorus export from agricultural watersheds in the Midwestern US. Annual meeting of the North American Benthological Society, Anchorage, Alaska
- 2006 Timing of riverine export of nitrate and phosphorus from agricultural watersheds in Illinois: Implications for reducing nutrient loading to the Mississippi River. Innovations in reducing nonpoint source pollution, Indianapolis, Indiana.
- 2005 Floods control nitrogen export from agricultural regions in Illinois: implications for nutrient loading to the Mississippi River. Mississippi River Basin Nutrient Science Workshop, St. Louis, Missouri.
- 2005 Temporal patterns in sediment denitrification rates in an agricultural stream. Annual meeting of the North American Benthological Society, New Orleans, Louisiana.
- 2005 Long-term patterns in stream export of DOC from agricultural watersheds. American Society of Limnology and Oceanography, Salt Lake City, Utah.
- 2003 Nitrate transport in agricultural streams: has denitrification been given too great a role? Annual meeting of the North American Benthological Society, Athens, Georgia.
- 2002 Energy flow in a stream ecosystem: an assessment of denitrification and oxygen metabolism. Annual meeting of the North American Benthological Society, Pittsburgh, Pennsylvania.

- 2001 Is denitrification a major sink for nitrate in agricultural streams? Annual meeting of the North American Benthological Society, La Crosse, Wisconsin.
- 2001 Denitrification rates and controls in agricultural streams in the Midwest. Annual meeting of the American Society of Limnology and Oceanography, Albuquerque, New Mexico.
- 1999 In-stream processing of leaves is not affected by pre-conditioning on the riparian floor prior to entering a hardwater, mountain stream. Annual meeting of the North American Benthological Society, Duluth, Minnesota.
- 1998 Effect of nutrient enrichment on the processing of leaf litter in a hardwater, mountain stream. Annual meeting of the North American Benthological Society, Charlottetown, PEI, Canada.
- 1998 A comparison of macroinvertebrate metrics developed for large and medium-sized rivers in Idaho. Annual workshop on water quality monitoring, Boise, Idaho.
- 1997 A multi-metric index for the bioassessment of large rivers in Idaho. Annual meeting of the North American Benthological Society, San Marcos, Texas.
- 1996 Land-use influences on benthic invertebrate diversity within and between watersheds of west central Idaho. Annual meeting of the North American Benthological Society, Kalispell, Montana.

TECHNICAL REPORTS:

- Abelkop, A.D.K, L. Bergkamp, B.W. Brooks, A. Gergely, J.D. Graham, G. Gray, K. van Leeuwen, G.E. Marchant, M.L. Mueller, **T.V. Royer**, and M. Vighi. 2013. Scientific and Policy Analysis of Persistent, Bioaccumulative, and Toxic Chemicals: A Comparison of Practices in Asia, Europe, and North America. School of Public and Environmental Affairs, Bloomington, IN.
- Royer, T.V.** and A. Madison. 2013. Tier II Water Quality Monitoring in Support of the MRBI Project for the Upper East Fork White River Watershed. Report to the Decatur County (IN) Soil and Water Conservation District, 31 pages.
- Royer, T.V.** and K.E. Aldrich. 2012. Tier II Water Quality Monitoring in Support of the MRBI Project for the Upper East Fork White River Watershed. Report to the Decatur County (IN) Soil and Water Conservation District, 15 pages.
- Royer, T.V.** 2007. Preliminary results on water chemistry in Jack's Defeat Creek during the 2007 Water Year. Report to the County Drainage Board, Monroe County, Indiana, 11 pages.
- McIsaac, G.F., **T.V. Royer**, M.B. David, D.J. Wuebbles, J.O. Dawson, and G. Sandiford. 2000.

Review of Illinois State Water Survey Contract Report 2000-08: "A contribution to the characterization of Illinois reference/background conditions for setting nitrogen criteria for surface waters in Illinois." NRES Department Report Series 2000-03, University of Illinois.

Cirone, P.A., D.W. Karna, J.R. Yearsley, C.M. Falter, and **T.V. Royer**. 2000. Ecological risk assessment for the Middle Snake River, Idaho. US EPA, Region 10, Seattle, WA, 122 pages.

Prussian, A.M., **T.V. Royer**, and G.W. Minshall. 1999. Impact of suction dredging on water quality, benthic habitat, and biota in the Fortymile River, Resurrection Creek, and Chatanika River, Alaska. Final report to US EPA, Region 10, Seattle WA.

Royer, T.V., G.W. Minshall, and K.E. Bowman. 1997. Assessment of habitat and biota in tributaries of Big Creek and the South Fork Salmon River, Payette National Forest. Report to the US Forest Service, Payette National Forest, 46 pages.

Royer, T.V. and G.W. Minshall. 1996. Development of biomonitoring protocols for large rivers in Idaho. Final report to the State of Idaho, Division of Environmental Quality, 55 pages.

Royer, T.V., C.T. Robinson, and G.W. Minshall. 1995. Ecological structure and function of the Middle Reach of the Snake River, Volume I: Water quality and benthic biomonitoring. Final report to the State of Idaho, Division of Environmental Quality, 84 pages.
